For Parents: Off-Campus Trips

Before you sign the consent form, ask yourself and your school these questions:

- How will this trip be supervised?
- What is the role of volunteers? How are they briefed on school policies?
- What are the travel arrangements? How have safety considerations have been addressed?
- For overnight trips, how can parents contact their children in the event of an emergency?
- What school policies pertain to off-campus trips? What information and guidance has been provided to students?
